

383527 to 383813—Continued

383740. *PRUNUS* sp. Rosaceae.

168. Sixty km. west of Ardehan. Tree to 3 m. tall, 10 cm. trunk. Yellow fruit, sour. Locally abundant in fence rows. Like American plum. Wild.

383741. *PRUNUS* sp.

176. Artvin. Perennial woody shrub to 3 m. tall. Fruit 3 cm. long, 2 m. in diameter, sour. Red, elongated seed. *Cornus*-like leaf form. Sold on the market.

383742. *PRUNUS* sp.

229. Ten km. northeast of Maden. Small tree. Nonsuckering. Yellow fruit 3 cm. in diameter, edible. Similar to *P. americana*. May have escaped from cultivation, in deep fertile soil. Wild and cultivated.

383743. *QUERCUS BRANTII* Lindl. Fagaceae.

164. Artvin. Shrub to small tree, variable forms. Heavily grazed by goats. Few hardly mature acorns. Wild.

383744. *RHAMNUS* sp. Rhamnaceae.

157. Twenty-one km. north of Tortum. Woody shrub to 2 m. tall. Thick, evergreen leaves. Seed on the top of fernlike bloom. Rocky limestone hillside. Abundant. Wild.

383745. *ROSA* sp. Rosaceae.

6. Ankara, northeast of city limits. One 5-to 10-year-old plant to 1.5 m. tall, 2 m. in diameter. Suckering sparsely. Interesting because 2- and 3-year-old hips were still hanging on. Wild.

383746. *ROSA* sp.

114. Erzincan, 28 km. toward Baskoy. Plant to 1.5 m. tall, 1.5 m. in diameter. Large elongate hips, 2 to 3 in a cluster. Wild.

383747. *ROSA* sp.

154. Twenty km. north of Erzurum. Dwarf plants to 30 cm. tall. Small dark red hips. Abundant, may be young plants. In old cemetery. Dry south slope, deep silt loam. Wild.

383748. *ROSA* sp.

208. Fifty km. south of Kars. Large bush to 1.5 m. tall, 2 m. in diameter. Large, elongated, abundant hips. Few large reverse spines. In bottom of gully along road. Wild.

383749. *SAMBUCUS NIGRA* L. Caprifoliaceae.

160. Artvin, city limits. Perennial shrub with black fruit clusters. Locally abundant on favorable south and east slope sites. Wild.

383750 to 383754. *SANGUISORBA MINOR* Scop. Rosaceae. **Small burnet.**

383750. 41. Ulukisla. Common. Rocky basalt slope in a new tree planting. Wild.

383751. 64. Twenty km. northeast of Urfa. Common plants near dryland wheatfield. Rainfall 38 cm. Wild.

383752. 120. One hundred and four km. northeast of Erzincan. One very vigorous, red-colored plant.

383753. 181. Ten km. north of Ardehan. Common along roadside irrigation ditch. Abundant. Local name "Cayar dugmesi abdes." Wild.

383754. 246. Pulumur. Single plant selection with large, reddish color. Good silt loam site. Wild.

383755. *SCIRPUS* sp. Cyperaceae.

71. Thirty km. northeast of Diyarbakir. Perennial 30 to 40 cm. tall. Sod former. Most common species near ricefield. Multiple drooping spikelets. Abundant seed. In ditch and wet spot near upland rice. Wild.
